Net profit:	<b>\$146,000</b>
Furniture/Fixtures value:	<b>\$125,000</b>
Inventory/Stock value:	<b>\$50,000</b>

### Business description

Relocatable Transmission Manufacturer For Sale. This company is one-of-a-kind custom builder and installer of 700-R4 and 200-4R automatic overdrive transmissions, primarily for GM vehicles and street rods.

In business for over 8 + years, seller has developed a reputation for excellence. It serves customers throughout the USA. The business holds several patents, one of which is for a throttle valve system that corrects GM's own unpredictable internal hydraulic pump control and external throttle valve. As a result of these corrections, the factory transmissions become predictable by allowing the customer to "dial in" the shift timing and "feel" of his/her transmission. Seller's patented system now corrects the geometry on after market Holley, Carter, Demon and Edelbrock carburetors.

While the company still performs installations, the great majority of its revenue comes from internet, telephonic and electronic orders. This makes the business relocatable. Its competitors perform "stock" installations; this business does not do "stock" work. In addition, the seller does specialty conversions for Fords (for example, installing GM transmissions if they fit).

### General information

Years established:	1997
Employees:	20
Relocatable:	This business can be relocated.
