Bird House & Feeder Manufacturer

Location: Pennsylvania > Southeast Pennsylvania

Industry: Manufacturing > Plastics Components Manufacturing

Business Summary

Manufacturing Business currently located in Canada. This business produces Birding Products featuring PVE, Wood & Polylumber. Polylumber is a state of the art product consisting of post-consumer bottle waste such as milk jugs. Unlike wood, the recycled plastics in a polylumber form, will not fade, crack, split, chip or rot. Partnering with polylumber, the seller has been transitioning the business from traditional wooden feeders to PVE materials. Attractive private labeling has been contracted with a national chain as well as new opportunities for growth resultant from PVA. The business is relocatable, current customers are in the USA & Europe.
