Business Summary

This fine glass ornament manufacturer/importer has been in operation since 1990 and is a perfect relocatable business, being run from the seller's house to minimize overhead. The manufacture of the glass ornaments themselves has been outsourced to Poland, but production could certainly be moved elsewhere. The business has created a number of molds throughout the years so that the current product line consists of between 250 and 300 molds. In addition to the standard-sized ornaments for full-sized Christmas trees, this manufacturer also specializes in miniature ornaments for smaller, desktop-sized trees. This is the ideal business for the entrepreneur who is possibly looking to expand the current ornament line, use the business contacts t
