Business Summary

This great business was established by an herbalist looking for an alternative to perscription medication. For the past 11 years, the company has provided quality, fresh products, including a complete line of fresh liquid herbal formulas, teas, and powdered beverages for healing and maintaining balance. All products are fresh made, by hand daily, out of pure organic materials. This is a very easy business to learn, and the growth potential is fantastic. QVC and Home shopping Network are looking to sell these products on TV. A Juice Bar program is ready to take off, where the health club sells by the shot. An in home program, MLM, is ready to start. A wholesale program to sell Dr's and retailers is in place. This business could be doing millions in sales in a very short time. Two major beverage companies are discussing adding these products to their beverages. A full web site is in place and included in the deal. If you are looking to grow a great business, call us today. News Flash! The owner just received their first wholesale order from Tree of Life Distributors. They service 15,000 retailers in the USA and Canada. This will be a big account.
