Business Summary

Put your feet up on the desk and just collect your commission checks. That's all the work you have to do, just carry your check to the bank. Nothing to inventory, nothing to bill, and nothing to ship. The business has been profitable from day one. This is a no overhead business. This is the most trafficked web site on the internet. The purchases are sent to licensed vets who process and fill the orders. All you have to do is collect the checks. By next year, the commission should continue to grow to \$100,000. The most exciting part about this listing is the real growth potential. On line pet medications business is a half a billion dollar per year business. By bringing in an inventory, and take over the shipping and credit card function, this site could be a \$10,000,000 a year business. The site now transfers buyer to another site when they order. This causes a large loss of buyers. If you keep people on your site, you will increase your sales 10 fold. If you have the money, and you feel this is the business for you, call me right now.
