Online Gift Certificate and Gift Registry Service

Location: Florida > Relocatable, miami

Industry: Internet Related > Other Internet Related

Business Summary

GiveFun.com is an online gift certificate and gift registry service offering emailable and printable gift certificates redeemable for 100's of nation wide participating merchant gift cards or services. Like our name, all participating merchants are Fun related - i.e. travel, entertainment, or leisure. Our concept offers a fresh approach to gift giving with a virtual gift certificate that encompasses the convenience of online shopping and practical value with personal touch. Our gift certificate can be sent instantly to anywhere in the world or sent to self to print from home computer for hand delivery. There are no shipping fees or taxes associated with our service and it's the only gift certificate consistent with the growing consumer shift for "experience related gifts" and a greater focus on the "art of living" rather than the "art of consuming". Among others, GiveFun.com's participating merchants include nation wide restaurants, spas, movie theatres, live theatre tickets, sporting events and more...

In addition, GiveFun has a gift registry service wherein individuals can register for any special occasion such as a wedding, birthday, graduation, etc - and redeem the dollars contributed to their registry at any time, in any amount, and with any of participating merchants.

Also a large part of GiveFun.com is our Corporate Incentive Program and offering B2B services.

Based on our experience and current consumer trends, it is evident that the timing for GiveFun.com is ideal. We have been in operation since December of 2003 and foresee the huge potential to take this unique business concept to the next level. Check us out at www.GiveFun.com
